Professional Profile

Multidisciplinary Spatial Designer with 8+ years of experience across architecture, experiential design, digital production, and 3D visualization. Experienced designing environments for both physical and virtual spaces through architectural planning, immersive content creation, and technical production. Skilled at translating creative concepts into thoughtful spatial experiences, combining architectural precision with strong visual storytelling and collaborative design workflows.

Relevant Experience

Architecture & Construction Experience

CAD Drafter (Contractor) — Evolution Drafting | Remote (USA)

2026-Present

- Develop residential spatial layouts balancing client goals, site constraints, zoning requirements, and construction feasibility.
- Produce complete permit-ready architectural drawing packages including floor plans, elevations, sections, and site plans.
- Translate conceptual ideas into coordinated technical documentation while maintaining overall design intent.
- Perform zoning and building code research to guide planning decisions and regulatory compliance.
- Coordinate revisions through concept, design development, and construction documentation.
- Manage multiple concurrent projects while collaborating remotely with project leads and maintaining high documentation quality.

Junior Architect — Inter-Art Properties & Development Corp. | Manila, PH

2014–2019

- Produced architectural drawings, details, and permit-ready documentation for residential and commercial projects
- Supported design development and coordination with consultants and contractors
- Created 3D models and visualizations to assist client approvals and internal reviews
- Assisted with schedules, revisions, and drawing coordination across project phases

**Architectural Intern — Manifesto Market | Prague, CZ
2020**

- Assisted in research, design, and visualization for hospitality projects
- Prepared concept studies and presentation materials for internal reviews

**3D Architectural Visualizer — VETN Architects & Associates | Manila, PH
2019**

- Translated 2D architectural plans into accurate 3D models for design development and client presentations

**Interior Designer (Sales & Design) — CNEX ModuFurni Systems | Manila, PH
2012–2013**

- Designed modular cabinetry systems and prepared drawings for fabrication and client approval

Digital Design & Technical Production Experience

**Digital Asset & Visualization Specialist (Freelance) — Auroboros Ltd. | Remote (UK)
2021–2024**

- Delivered high-fidelity 3D assets and visualizations under strict timelines and quality requirements
- Coordinated with cross-functional teams, managing revisions, approvals, and final deliverables
- Maintained structured workflows, documentation, and version control across complex projects

**Environment Artist (Virtual Events) — Merri | Remote (USA)
2021–2022**

- Built modular environments and prepared assets for deployment under production constraints
- Supported fast-paced iteration cycles, reinforcing strong organizational and coordination skills

Education

BS in Architecture — Technological University of the Philippines | 2007–2012
MA in Future Design — Prague College / Teesside University | 2019–2021

Technical Skills

• AutoCAD • SketchUp • 3D Visualization • Blueprint Reading • Design Development & Documentation • Project Coordination & Workflow Management • Client & Consultant Communication

Soft Skills

• Project Coordination & Workflow Management • Client & Consultant Communication • Cross-functional Team Collaboration • Schedule & Deadline Management • Detail-oriented Review & Quality Control • Clear Written & Verbal Communication
